

Connect to UAL-WiFi (iPhone and iPad)

Make sure you're in an area with good wireless coverage then follow these steps:

01. From the home screen tap **Settings**.
02. Tap **WiFi** to bring up a list of wireless networks.
03. Tap **UAL-WiFi**: Enter your **UAL username** and **password**.

Having trouble connecting?

If you're having trouble connecting, please make sure you:

- are in an area with good wireless coverage
- are not using a temporary password

[Reset your password.](#)

If you have used UAL-WiFi on your device before, go to network settings and forget UAL-WiFi before connecting with a new password:

01. On the home screen tap **Settings**.
02. Tap **WiFi** then tap the blue arrow next to the network that is being troublesome.
03. Tap **Forget this network**.
04. Tap **Forget** in the pop-up to reset settings for this network.
