These changes are included for all Beneficiaries who are eligible to be covered under the Group Policy.

Changes to Cover

Onward Travel After Trip

IL9 - Trip – means any trip or journey as shown in the Statement of Insurance made by the Beneficiary (but excluding one way trips or journeys) to the United Kingdom. Cover will be automatically extended to include:-

- inward and outward direct Trips by the Beneficiary to and from their Home at the beginning and end of each academic term
- a Trip outside the United Kingdom if it is a required part of the Beneficiary's study course
- leisure Trips within Europe for a period not exceeding 21 days in total in each Policy Term

Period of Cover – This Group Policy shall not be invalidated should the Beneficiary choose to travel onward after completion of their Trip. In this case, Section 1- Cancellation cover shall be operative from the time the Beneficiary is accepted for cover and shall terminate when the Beneficiary commences their Trip. For all other sections of this Group Policy, cover is in place from the time the Beneficiary commences their Trip and terminates at the time the Beneficiary completes their Trip. There is no cover under this Group Policy for any part of the journey where travel is outside of the Trip.

If the beneficiary chooses not to return to their Home in their Home Country following the completion of their course then all cover will cease under this Group Policy on the final days of the course or final date of cover (whichever is earlier). There will be no cover under this policy for any onward travel or extended stay or for any associated costs. The Beneficiary will need to seek alternative insurance to cover them for this period of travel.

General conditions and general exclusions apply to the whole of the Group Policy and all levels of cover.
