### NOTES FORMING PART OF THE FINANCIAL STATEMENTS

#### 1. ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to these financial statements.

##### (a) Basis of Preparation

The financial statements have been prepared in accordance with applicable accounting standards and under historical cost accounting rules.

The Company is exempt by virtue of s401 of the Companies Act 2006 from the requirement to prepare group financial statements. These financial statements present information about the Company as an individual undertaking and not about its group.

Under FRS 1 the Company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the Company in its own published consolidated financial statements.

As the Company is a wholly owned subsidiary of the University of the Arts London, the Company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with entities which form part of the group (or investees of the group qualifying as related parties). The consolidated financial statements of University of the Arts London, within which this Company is included, can be obtained from University of the Arts London, 272 High Holborn, London WC1V 7EY.

##### (b) Going concern

On the basis of their assessment of the company's financial position and resources, the directors believe that the company is well placed to manage its business risks. Therefore the company's directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis in preparing the annual financial statements.

##### (c) Turnover

Turnover for the year is derived primarily from operations in the United Kingdom, although many clients are drawn from overseas. It represents short course tuition fees, trading activities generically related to the provision of educational services and the sale of artwork. It is shown net of value added tax and trade discounts.

##### (d) Net Management Fee receivable

A management fee is charged to the University of the Arts London for the design, marketing and co-ordination of the university's Study Abroad courses as well as the recruitment of students. An additional management fee is also charged to Artscom Ventures for the design, marketing and co-ordination of their international activities.

##### (e) Taxation

The charge for taxation is based on the result for the year.

##### (f) Pension Schemes

The Company operates a pension scheme providing benefits based on final pensionable pay. The assets of the scheme are held separately from those of the company.

Pension scheme assets are measured using market values. Pension scheme liabilities are measured using a projected unit method and discounted at the current rate of return on a high quality corporate bond of equivalent term and currency to the liability.

## LONDON ARTSCOM LIMITED

### NOTES FORMING PART OF THE FINANCIAL STATEMENTS

The pension scheme surplus (to the extent that it is recoverable) or deficit is recognised in full. The movement in the scheme surplus/deficit is split between operating charges, finance items and, in the statement of total recognised gains and losses, actuarial gains and losses.

##### Pension schemes

Retirement benefits to employees of the company are provided by the London Pension Fund Authority (LPFA) under the Local Government Pension Scheme (LGPS), a defined benefit scheme which is externally funded and contracted out of the State Earnings Related Pension Scheme. Contributions to the scheme are charged to the income and expenditure account so as to spread the cost of pensions over employees' working lives with the company in such a way that the pension cost is a substantially level percentage of current and future pensionable payroll.

Contributions are determined by qualified actuaries on the basis of triennial valuations using the projected unit method.

The LGPS is a funded defined benefit scheme, with the assets held in separate trustee administered funds. The total contribution made for the year ended 31 July 2013 was £417,000 of which employers' contributions totalled £298,000 and employees' contributions totalled £119,000. The local government pension scheme agreed contribution rate for periods beginning April 2012 and April 2013 is 17.3% for employers and 5.5% to 7.5% for employees (depending on earnings) throughout and for future periods.
