"I can think of few other industries as creative, innovative and agile as fashion. ALCF have heavily invested in making sure sustainability is seen as an integral and an integral part of the process of business and design. We need our graduates to be aware of how influential designers can be in working out 'cradle to cradle' solutions before the garment leaves the design board.”

CSF’s Monthly Open Mornings are an opportunity for you to come and talk to a member of the Centre for Sustainable Fashion like a one-to-one session about your work.

We advise you to come prepared as the sessions are very popular and get full very quickly.

Please check our website for the dates as well as other events that might be of interest.
