How to forget _TheCloud_ (Mac)

This is a general guide for Mac users. Some steps may differ between different operating systems.

01. Click on the Wi-Fi symbol on the menu bar and select Open Network Preferences...

02. Click Advanced...
03. Click **TheCloud** and click the minus symbol. Click **OK**.

04. Make sure the Network Name is on **UAL-WiFi**, click **Apply** and close.
