How to forget _TheCloud (Windows)

This is a general guide for Windows users. Some steps may differ between different operating systems.

01. Navigate to the Wi-Fi icon on the far right of the Windows taskbar.

02. Click **Network & Internet settings**.

03. Click **WiFi** in the left list column.
04. Click **Manage known networks**.

05. Select **_TheCloud** and click **Forget**.
