UAL's water consumption is at a less advanced stage of monitoring than energy. Please note that due to when the data is received the latest data available is two months behind the current month. Consumption has been low in 2021 due to building closure and reduced occupancy during the pandemic.
Central Saint Martins

Kings Cross

The meter for Kings Cross is very hard to access. The reduced consumption in Sept is due to previous high estimates.

Archway
The reduced consumption in Sept and Oct 22 is due to previous high estimates.
The low consumption in November is due to previously high estimates.
An incorrect estimate was used in April 21 which causes the spike which is then rectified in May 21.
John Princes Street

The meter at JPS has been replaced as it was faulty.

Lime Grove

Mare Street

There is no data for January 23 because the meters were changed.
Halls of Residence

UAL manages the utilities for only the four halls below.

Archwood House

Archwood House opened to students in September 22

Brooke Hall

Gardens House
