

Install software on a UAL Mac

Please ensure you are logged into a UAL Mac and connected to the University Network.

01. Click on the magnifying glass (top right of the screen).

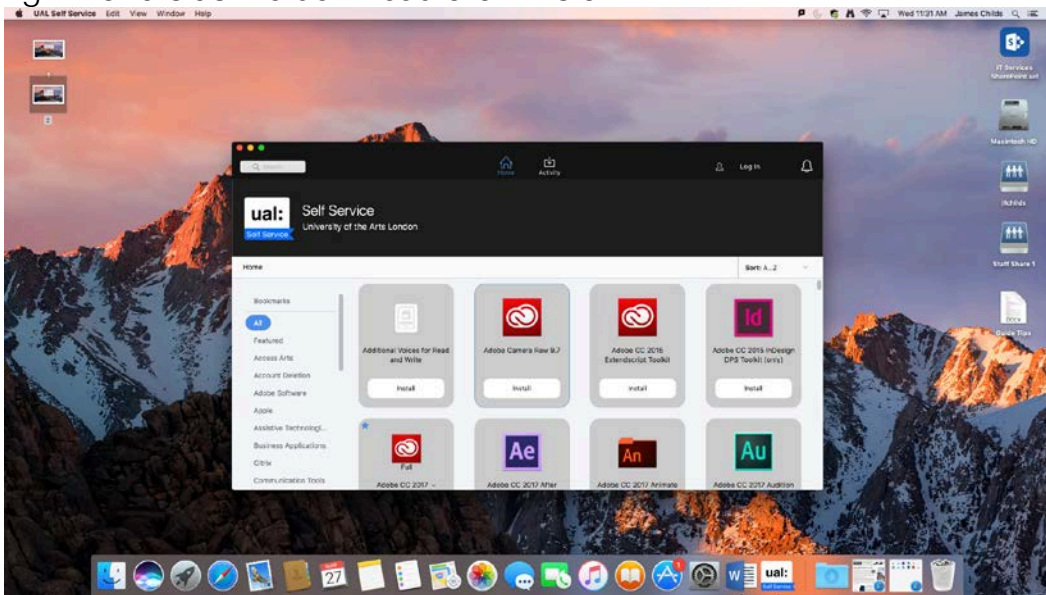

02. Type 'Self Service'.

03. Open Self Service.

04. Login with your UAL username and password.

05. Choose from the featured apps available, or select a category on the right-hand side. To download click 'install'.

Some applications need you to restart your computer to complete the installation.

Students who need help installing software on a UAL Mac should contact local support staff. Staff who need help can contact the IT Service Desk.
