

## Install software on a UAL PC

Please ensure you are logged into a UAL PC and connected to the University Network.

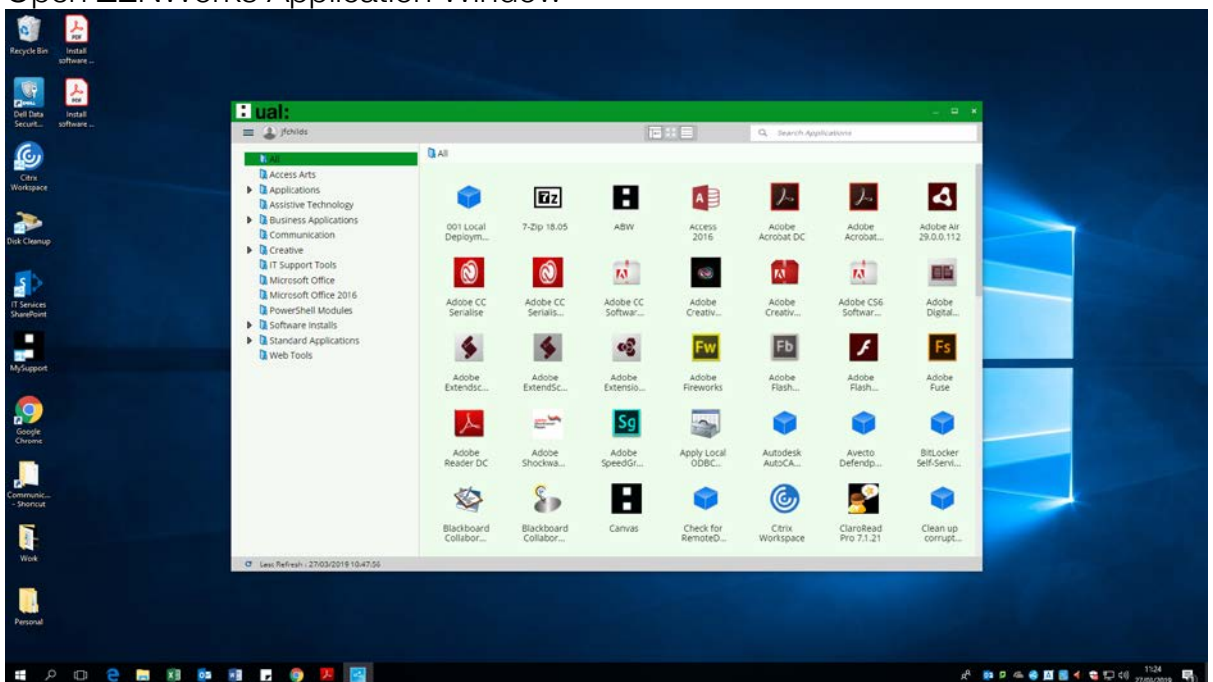

01. Click on the Search Windows button (bottom left of screen).

02. Type 'ZENWorks' into the search field.

03. Open ZENWorks Application Window

04. Choose from the apps available, or select a category on the left-hand side.

05. Right click on the application you would like to install and select Open.

Some applications need you to restart your computer to complete the installation.

Students who need help installing software on a UAL PC should contact local support staff. Staff who need help can contact the IT Service Desk on 02075149898.
